Addendum to Submission re *Paris Agreement* (Paris, 12 December 2015)

Dear Sir/ Madam,

I refer to my submission dated 5 October 2016. This is a short addendum to that submission.

In 2015 the Climate Guardians (of which I am a member) travelled at their own cost to the Paris COP21 talks.

We took with us hundreds of poignant artworks and messages from Australian children to world leaders (including the Australian delegation) calling for meaningful climate action. Each of those artworks and messages is in reality a submission from an otherwise voiceless young Australian on the Paris Agreement.

I attach a link to the Flickr album that contains images of the artworks and messages and ask that the Committee takes the time to review them with open minds and hearts.

<https://www.flickr.com/photos/136219523@N03/albums/72157659486690533>

Please acknowledge receipt of this addendum to my submission.

Yours faithfully,

Deborah Hart on behalf of ClimActs
